15.1 Mentoring Programme:

Students (as applicable school wise) have been assigned faculty mentors whose role is to help assimilate the NMIMS culture, facilitate intelligent choice making regarding selection of courses, and help identify resources needed by all students. Do meet your faculty mentor regularly as per their convenience and availability.

15.2 Psychologist and a Counsellor:

A counsellor is a non-judgmental friend who understands, ensures privacy and confidentiality and counsels you by giving choices so that you make the right decision. Counselling is a realistic, structured, and research-based therapy. Managing emotions is vital to ensure all-rounded progress in life. We need to break the old walls of myths and misconceptions to learn something new. Visiting a counsellor helps us to relearn more helpful, progressive, reality-based thinking.

Personal counselling is essential at every step in life, even at the corporate level. What we think about situations affects our subconscious mind and interferes with our present-day life.

As normal human beings at any given time in life, we could go through challenging times and have no one to share or guide us. We often do not share our issues with family or friends due to the fear of upsetting them. We worry that perhaps they may not understand or could become judgmental. At such times, we recommend Personal Counselling.

- i. "I cannot concentrate or focus nor can I sleep, at times, I get so scared that I go blank in my exams!"
- ii. "Since the time he left me, I cannot put my attention to anything I will not be able to live anymore.....can't bear it if she is not in my life!"
- iii. "I have lost my confidence I feel worthless /hopeless; no one loves me. I don't want to live anymore"
- iv. "I feel nobody understands what I am going through..." (People become judgemental instead of understanding and supporting)
- v. "I do not know whom to share my feelings with? Where do I seek help? Who will be able to help me?"

Have you had any of these repetitive thoughts or faced a rejection that you cannot cope with?

Have you reacted very angrily first and then later realised that reacting to the event was not needed and in the process, you harmed the relations you had with your friends and family? Do you not know what went wrong then? Do you not understand what triggered you?

Just as we would treat a sprain with some ointment, we try to heal our emotional pain independently. When the sprain is not healing, we visit the doctor, and similarly, one sees the counsellor sometimes when we are unable to clear our emotional challenges. The counsellor needs to check how deep your wound is, and usually, you are helped by putting a first aid protection (counseling) through therapeutic counseling. Sometimes the injury may have been too deep /chronic, or your trauma could also need psychiatric intervention and give appropriate help.

We may be unaware of our behaviour's implications on others, but it eventually could affect our relations in daily life at home, in class, or at work. When the past emotional situations are not dealt with therapeutically, we could develop unhealthy negative thoughts and feelings that we need to be aware of. They could again lead to complications and affect our performance, decision making, logical thinking, studies, relationships and career. This continued stress can gradually affect our body and physiological health causing hypertension, respiratory ailments, gastrointestinal disturbances, migraine and tension headaches, pelvic pain, impotence, frigidity, dermatitis and ulcers.

The biggest myth is that being emotional is to be weak, so often, we push all our emotional issues under the blanket and then take up unhealthy habits like smoking, drinking, and substance abuse to avoid sleepless nights. We hope to feel better, which lasts only for short term. On the other hand, creating long term damage may lead to unhealthy dependency.

NMIMS wants to ensure holistic development of the students. Therefore have appointed a team of psychologists and a counsellor.

21. Safety Guide for Students on Floods, Fire and Earthquakes

NMIMS gives utmost importance to safety of its students. It prepares students for natural hazards.

The safety measures for some natural disasters such as 1) Floods, 2) Earthquakes and 3) Fire are highlighted briefly.

21.1 Floods: Precautions to be taken in case of Floods are given in Table 1 below.

Before Floods	During Floods	After Floods
<ul style="list-style-type: none"> Identify and visit elevated areas in and around the Institute as places of refuge during a flood Be aware of drainage channels, and other low-lying areas known to flood suddenly. Consult and involve local authorities in the institutes Check out for the monsoon alerts for the heavy rains declared by the Municipal Corporation Do not travel long distances on dates indicated as 'Monsoon Alerts'. Contact the Institute if there is any pre planned activity or examination or any other important work on that day and try to adjust it on some other day Keep locally available equipment such as ropes, battery, radio, plastic bottles and cans handy during rainy season. This can help you to plan your rescue Prepare a food kit including emergency food items such as biscuits, snacks, drinking water and so on 	<ul style="list-style-type: none"> Evacuate to previously identified elevated areas Your life is most precious Avoid to save valuables at that moment. Disconnect electrical appliances. Turn off utilities at the main switches of valves if instructed to do so Don't touch electrical equipment if you are wet or standing in water Do not walk through moving water. Six inches of moving water can make you fall If you have to walk in water, walk where the water is not moving Use a stick to check the firmness of the ground in front of you Avoid floodwaters; water may be contaminated by oil, gasoline, or raw sewage Water may also be electrically charged from underground or downed power lines Listen to the radio for advance information and advice. Don't spread rumors Move vehicles to the highest ground nearby Do not enter floodwaters by foot if you can avoid it Never wander around a flooded area Drink clean water 	<ul style="list-style-type: none"> Stay away from downed power lines, and report them to Security Officer Leave the Institute / home only when authorities indicate it is safe Stay out of any building if it is surrounded by floodwaters Use extreme caution when entering buildings; there may be hidden damage, particularly in foundations Floors in the building will be slippery due to water and mud. Walk carefully on the slippery floor. Wear appropriate footwear. Do not use slippers during rainy season Watch out for loose flooring, holes and dislodged nails Clean and disinfect everything that got wet Discard any food items which may have got wet Inform about the damaged drainage and sewage systems in and around the building to the authorities as soon as possible. These can be a major health hazard First protect yourself and then help others.

21.2 Earthquake: Precautions to be taken in case of earthquakes are displayed in Table 2 below:

Before Earthquake	During Earthquake	After Earthquake
<ul style="list-style-type: none"> In hostel or at home keep heavy objects on lower shelves so they will not fall on you during an earthquake. Make sure your water heater and gas cylinder is secured and intact. This will ensure that it will not fall during an earthquake and hurt someone or start a fire. Keep a torch and a mobile handy. Keep the corridors in the hostel/house clear of furniture and other things, making movement easier. 	<p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Do not rush to the doors or exits; never use the lifts; keep well away from windows, mirrors, chimneys and furniture. Protect yourself by staying under the lintel of an inner door, in the corner of a room, under a table or even under a bed. <p>If you are in the street</p> <ul style="list-style-type: none"> Walk towards an open place in a calm and composed manner. Do not run and do not wander round the streets. Keep away from buildings, especially old, tall or detached buildings, electricity wires, slopes and walls, which are liable to collapse. 	<p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Expect aftershocks. Be prepared. Stay where you are and do not come out immediately. Keep calm obey any instructions you hear after you come out Turn off the water, gas and electricity Do not smoke and do not light matches or use a cigarette lighter. Do not turn on switches. There may be gas leaks or short-circuits. If there is a fire, try to put it out. If you cannot, call the fire brigade. Immediately clean up any inflammable products that may have spilled (alcohol, paint etc.). Avoid places where there are loose electric wires and do not touch any metal object in contact with them. Do not drink water from open containers without having examined it and filtered it through a sieve, a filter or an ordinary clean cloth. Eat something. You will feel better and more capable of helping others. If the building is badly damaged, you will have to leave it. Collect water containers, food, and ordinary and

Keep clear of the streets to enable rescue vehicles to pass. • Keep away from beaches and low banks of rivers. Huge waves may sweep in. • Keep updating yourself with latest information on earthquake through radio or T. V.

21.3 Fire: Precautions to be taken in case of fire are given in the Table 3 below:

Before Fire	During Fire	After Fire
<ul style="list-style-type: none"> • Identify the fire hazards and where fires might start, e.g. laboratories, storeroom, kitchen and other such places. • Identify all the exit routes of the Institute. • Check the adequacy of firefighting apparatus and its maintenance. 	<ul style="list-style-type: none"> • Do not panic. Shout loudly for help. • Do not run. • Do not waste time in collecting valuables. • Inform the fire brigade about the fire and alert neighbors. • If possible, use fire extinguisher. • Do not take shelter in toilet. • Shut all the doors behind you while leaving the room to prevent fire from spreading everywhere. • Do not use the lift to escape. • Use nearest means of escape and the staircase available. • Make exit to ground level instead of the terrace. • Report about your safe escape and any other information to the University authorities, fire brigade or police present at the site. <p><i>If trapped or stranded:</i></p> <ul style="list-style-type: none"> • Stay close to the floor level. • Cover the gaps of the door by any piece of cloth available. • Do not jump out of the building. • Signal or shout for help. • Stop, drop and roll on the ground and cover with blanket; pour water on the body • Dial 101 or 22620 5301 for fire brigade • Give the fire officer detailed address, nature of the incident and the telephone number from which you are calling. Preferably, use landline. Keep down the receiver and wait at the same spot. Control Room will call back to verify the call. • Wait for the Fire Brigade to arrive and co-operate with the firefighters. 	<ul style="list-style-type: none"> • Don't re-enter or permit anyone to enter the building, unless the fire officials have given permission to enter.

MESSAGE FROM DIRECTOR

It is rightly said

“A CAPABLE AND COMMITTED NEXT GENERATION IS THE MOST IMPORTANT LEGACY A BUSINESS FAMILY CAN HAVE”

Sincere congratulations to all of you on making it to the PDSE & FBM NMIMS for the MBA E & FB, MBA Entrepreneurship class of 2022-23. On behalf of all our faculty and staff at the School, I am delighted to welcome you to the NMIMS University, Mumbai Campus.

Family businesses have been an integral part of any country's economy and society. The story is not different in India. These businesses, whether large conglomerates or medium and small enterprises, have contributed significantly to nation building, employment generation and overall wealth creation.

In new research from PwC, 65 percent of next generation (NextGen) family business members say achieving business growth is a top priority. At the same time, nearly the same number, 64 percent, say their family business has the opportunity to lead the way in sustainable business practices. More than half, 55 percent, believe their family business puts sustainability at the heart of everything they do, while 71 percent recognize their business has a responsibility to fight climate change and its related consequences.

Ownership Competence, a model developed by Professor Thomas Zellweger of the University of St. Gallen, focuses on three elements that align with what we call the owner's agenda:

- What is owned: how owners combine resources to create value today and in the future.
- How it is owned: setting family governance, choosing leaders and managers, and providing incentives to maximize value creation.
- When it is owned: timing of ownership decisions, such as succession planning and the staging of investment.

If a business is to create competitive advantage and sustained growth, it must pay attention to all three.

Our Pravin Dalal School for Entrepreneurship and Family Business management at NMIMS, being the pioneer and in the segment for more than two decades, understands the emerging needs of family run businesses in these challenging and turbulent times. We were also amongst the first few to understand that thinking and acting entrepreneurially is more than just an inclination. It can be taught. Over the years we have been able to sustain and grow because we have a global outlook, respect towards existing value systems and focused methodology to understand and differentiate each sector and each Indian family run business.

We further believe that entrepreneurship can be a powerful force within organizations of all types and sizes, in established businesses as well as in new ventures. In any industry, in any position, it takes entrepreneurial thinking and relative action to solve problems and make an impact.

The school has a vision to be amongst the top 50 in the World at enabling the development of leadership skills, for sustainability and scalability of their respective family run businesses. Today in our collaborative community at NMIMS, students gain the fundamental business skills and specialized knowledge necessary to cultivate an entrepreneurial mind-set. They then use that mind-set to navigate real business situations, putting what they learn into practice and becoming leaders equipped to make a difference on campus, in their businesses and around the world.

The programs MBA E & FB (2 years' full time) since 1999, Integrated MBA E&FB (5 years post 12th) since 2015, ETW, Weekend FMBA since 1999, MBA Entrepreneurship since 2020 and BBMM Since 2021 at our school focus on entrepreneurial mindset.

Our balanced curriculum keeping in mind the Indian family businesses, their systems and processes, values and professional challenges has been designed in such a way that it offers students a blend of skills and capabilities that are at the heart of management.

NMIMS Pravin Dalal School of Entrepreneurship and Family Business Management has continuously worked in fortifying the SME sector in India. Today we have over 5000 alumni who are names to reckon with in this sector. Many of them have started their own ventures and triumphed. It has been our endeavour to customise the latest in management studies for family businesses and make it relevant to the ever-changing demands of a fast-paced economy like ours. The school's motto is to provide intellectual capital to those with easy sources of capital so that family business is professionalised and commands the due respect that it deserves.

The Intensive International exposure at the right time of their career while they are academically geared, helps them to build a global perspective and thereby lead their scalability strategies.

I am sure, the journey of students here at NMIMS will be an unparalleled experience of intensive learning which will lead to a record of outstanding accomplishments in all walks of their life along with providing a deeper perspective to the ideas and practice of management of respective Family run businesses and new ventures.

I wish to thank each and every "Growing Entrepreneur" for believing in us and trusting us completely for their learning's.

The Alumni Association provides opportunities for the alumni to participate and contribute to the continued growth and development of the institute, thereby strengthening alumni- institute linkages.

The quality of alumni relations is a significant criterion by which success of the Institute is measured and at NMIMS we constantly strive to attain it.

A strong mechanism of communication has been setup with the alumni on a day-to-day basis which involves informing them about special achievements by our alumni, activities held at the institute, job postings, regular database updating, invites to events, responding to their queries and so on. Moreover, to ensure effective communication and interaction between the alumni of various batches, the Alumni Portal, <https://sbmmimسالumni.org/> a social networking platform, is operational.

The monthly e-newsletter, Aluminous, informs the alumni with the latest developments in the institute that make them feel connected to the institute in more than one way. Moreover, the Alumni Cell facilitates other cells of the Institute like Student Council, Finomenon, and Adverb by providing alumni contacts. The cell involves the alumni in the admission process by having the alumni as panelist during the CD-PI process. Every year many Alumni have been invited to college to judge events and as speakers for seminars, thereby increasing the student interaction with our alumni.

After students complete the selection process at NMIMS, they will be nominated to the selected exchange university. The exchange university will contact nominated students by email and ask them to complete an online application procedure within a prescribed time period. An important part of this process is the selection of courses at the exchange university.

When selecting courses, students must remember the following:

- The courses selected, in terms of type of courses, number of courses and total classroom contact hours, must be in line with the students' NMIMS programme requirements.
- Students must select a minimum of 5 courses during their term abroad.
- The courses selected must total a certain minimum number of contact hours of classroom teaching. This minimum number will depend on the student's programme at NMIMS. For FTMBA E & FB students (Mumbai campus), the minimum number is 240 hours. Students of other programmes must check with their course coordinator or programme chairperson for minimum number of contact hours. Hours spent by the students in project work are not included in the minimum number of contact hours.
- The courses selected cannot be the same as the courses the students have completed or plan to complete at NMIMS.
- The courses selected should be in accordance with the students' programme requirements at NMIMS and must have the approval of their course coordinator and programme chairperson at NMIMS. For guidance on this, students may contact their course coordinator or programme chairperson at NMIMS.

 - (1) They fully understand the requirements of the course as well as the evaluation norms
 - (2) Their submissions for every evaluation have been received on time.If a student brings back a failed grade, the Host University may not provide the opportunity for a re-submission or re-exam. In such a case, NMIMS will accept the grade as it is, and the student will have to repeat the year. Excuses such as "I was unaware that the assignment did not get uploaded/submitted" or "I was mistakenly accused of Similarity index" will not be accepted.
- In case there are any problems with or deviations in process for any course that students have taken at their Host University, students must inform NMIMS's International Linkages Office immediately with a copy marked to the administration of the host university and the professor teaching the course. Delay in informing and seeking approval from NMIMS's International Linkages Office may lead to negative consequences for the student.
- Students must also ensure that they do not get a failing grade in the trimester at NMIMS prior to the exchange programme. Students may not get an opportunity to appear for re-examination or it may delay their convocation.
- Students participating in the International Student Exchange Programme are eligible for the Dean's list during their 2nd year, provided they were also in the Dean's list for the 1st year. Such students will be shortlisted on the basis of the CGPA of two trimesters of the 2nd year.

13 Examination Guidelines (Applicable for MBA E & FB, MBA ENT Programme) (13.1 to 13.8)

13.1 EVALUATION & GRADING

- a. The respective subject faculty would evaluate the performance of the students during the examination of the respective subject. A student would undergo continuous assessment for each course/subject in all the trimesters. Various components of such continuous assessment would be as decided by the respective course/ subject teacher/ faculty and approved by Director /Director of the school concerned.

Break up continuous evaluation of each course will be as under:

Component	Marks
Unit Test / Project/ Assignment/ Presentation/ Weekly Tests / Case Study/ Quizzes / any other (School)	60
Final term/ Trimester End Examination (University)	40
TOTAL	100

PASSING STANDARDS FOR EACH SUBJECT:

Trimester-end exam passing criteria for each course:

- To pass in a particular subject in any of the trimester end examination or trimester end re-examination, student must secure a minimum of one-third marks of the total maximum marks of that subject, in the trimester end examination.
- “F” Grade would be awarded, where marks obtained are less than 40 (39 and below) in aggregate or where the marks obtained in the trimester end examination are less than one-third of the total maximum marks of the respective course.
- Students who fail to fulfil above passing criteria would be awarded ‘F’ grade.
- Students who obtain marks between 40 and 49.99 would be awarded ‘D’ grade (low pass). Please refer ‘Grading’ scheme given below.
- For subjects which has only ICA component, minimum passing would be 40%

13.2 Grading System

The following would be the letter grading system leading to the award of a four-point Grade Point Average (GPA) for each term and Cumulative Grade Point Average (CGPA) for all the terms until date.

Method of calculation of letter grades for batch size of 25 and above:

a) **Wherever the course is taught by one faculty in one or more divisions**

Grading will be done after considering the marks (i.e., aggregate of internal continuous assessment and trimester end examination marks) obtained by each student of the entire batch for the course sharing common paper, **by fitting such marks into normal distribution curve.**

Maximum marks assigned by the faculty concerned for a course will be taken into account for the batch / group. For the purpose of assigning grades, the following table would be used.

Sr.No	Letter Grade	% of class
1	Grade A	35 percent of batch excluding Grades D & F
2	Grade B	50 percent of batch excluding Grades D & F
3	Grade C	15 percent of batch excluding Grades D & F
4	Grade D	Where marks obtained are between 40 and 49
5	Grade F	Where marks obtained are less than 40 (39 and below) in aggregate and/ or. Where the marks obtained in the trimester end examination are less than one-third of the total maximum marks of the respective course.

b) **Method of calculation of letter grades for class size of less than 25**

For the calculation of grades, the following guidelines would be observed:

- Maximum marks assigned by the faculty concerned for a course will be taken into account for the batch / group.
- Difference between the maximum marks and 50 marks would be calculated.
- The said difference will be equally divided into slabs of nine letter grades (i.e. A+, A, and A-, B+, B and B- and C+, C and C-)
- ‘D’ grade will be assigned to students, who have obtained marks between 40 and 49.
- ‘F’ grade will be assigned to students who have obtained marks less than 40 and / or to the students whose marks in the trimester end examination are less than one-third of the total maximum marks of the trimester end examination of the respective course.
- Grading will be done on the basis of marks obtained by a student in each course which will be fitted into the above slabs of letter grades

Here A will include A+, A and A-, B includes B+, B and B-, C includes C+, C and C- as given above, while calculating the letter grades for each course of the students.

- c) In case of elective courses, the number of students for that course would be considered for the purpose of assigning grades for that course.

13.3 Method of Calculation of GPA:

Grade Point Average for a term will be computed by dividing, the sum of product of grade point of each Course / module and credit value assigned, to each respective course by the sum of credits assigned to all the courses/ modules for the related term.

$$\text{GPA} = \frac{\sum \text{CG}}{\sum \text{C}}$$

13.4 Method of Calculation of CGPA:

Cumulative Grade Point Average up to and including a term will be computed by dividing the sum of product of grade point of each course/ module and credit value assigned to each respective course by the sum of credits assigned to all the courses/ modules up to and including the related term. **Here:**

C = Credit value assigned to a course/ module

G = Grade point value assigned to a student for course/ module corresponding to the letter grade (refer table given)

GPA: Grade Point Average shall be calculated for Individual term.

CGPA: Cumulative Grade Point Average shall be calculated up to and including each term until date.

13.5 RE - EXAMINATIONS:

- Re-Examination will be conducted immediately after Term-End Exam for students who may have obtained 'F' and/ or 'D' grade, immediately after Term End Exam.
- The maximum grade that a student, in such a case, can obtain for such course will be C +.

Eligibility of a candidate to apply and appear for re-examination will be as under.

- The candidates who resort to unfair means and who are required to appear at re-examination due to involvement in adoption of unfair means (as penalty) will get C+ or actual grade whichever is lower in the re-examination.
- Improvement in the internal assessments will not be allowed for re-examination purpose.
- If a student fails in project, one attempt is allowed to re- submit the project. However, the re-submission should happen prior to re- examination scheduled for the academic year.
- A student who does not fill up online re-examination form will be denied permission to appear at the examination.
 - Students submitting re-examination form will be awarded AB / F grade if he/ she remains absent.

- ‘Letter grades’ and corresponding ‘grade points’ are as under:

Grade	Points	Class interval of marks	
A+	4	100%	85%
A	3.75	84.99%	81%
A-	3.5	80.99%	77%
B+	3.25	76.99%	73%
B	3	72.99%	69%
B-	2.75	68.99%	65%
C+	2.5	64.99%	61%
C	2.25	60.99%	57%
C-	2	56.99%	50%
D	1.5	49.99%	40%
F	0	39%	0

$$\text{GPA} = \frac{\sum \text{CG}}{\sum \text{C}}$$

Calculation of CGPA (Cumulative Grade Point Average):

Cumulative Grade Point Average up to and including a term will be computed by dividing the sum of product of grade point of each course / subject and credit value assigned to each respective course by the sum of credits assigned to all the courses / subjects up to and including the related term till date.

Here:

C = Credit value assigned to a course /subject

G = Grade point value assigned to a student for course / subject corresponding to the letter grade (refer table given)

GPA = Grade point Average shall be calculated for individual term and referred to as Trimester Grade Point Average.
